

ExcellCity Project Team Participates in Short-Term Mobility at the University of Murcia, Spain

Between 11 and 16 January 2026, the team of project BG-RRP-2.005-0003 ExcellCity carried out a successful short-term mobility visit to the University of Murcia, Spain, as part of Work Package 2 activities.

Main Activities and Highlights

- ▶ conducting joint scientific research and preparing academic publications in cooperation with researchers from the University of Murcia;
- ▶ presentations of ongoing research and innovation projects by PhD students of the host university;
- ▶ discussions and preparation of future joint project proposals within European and international funding programs;
- ▶ demonstrations of smart solutions in the agricultural sector, including experimental implementations within the GreenHouse initiative;
- ▶ participation in the **Semiconductor Security Forum**, focused on current challenges and good practices in the field of semiconductor technologies and cybersecurity.
